

# Powermax45 SYNC

Recommended cut capacity of 16 mm (5/8")
Severance capacity of 29 mm (1 1/8")
Professional grade

Part of the Powermax® family, the Powermax45 SYNC features advanced torch communication for automated setup and patented single-piece cartridges for hand cutting, mechanized or robotic cutting, marking, or gouging.

# **Key business benefits**

### Simplify operations and boost productivity

Single-piece cartridge simplifies operations and dramatically reduces training time

### Minimize operating costs

Up to 5x longer consumable life compared to competitors decreases operating costs

#### Reduce secondary operations

Improved cut quality over consumable life delivers better part consistency to reduce secondary operations

### Powermax45 SYNC cut and gouge capacities

| Cut capacity                    | Thickness                              | Cut speed                         |
|---------------------------------|--|-----------------------------------|
| Recommended                     | 16 mm (5/8")                           | 500 mm/min (20 ipm)               |
| Severance<br>(hand cutting)     | 29 mm (1-1/8")                         | 125 mm/min (5 ipm)                |
| Pierce*                         | 12 mm (1/2")                           |                                   |
| *Pierce rating for handheld use | or with automatic torch height control |                                   |
| Gouge capacity                  | Metal removal rate                     | Groove profile                    |
| Typical gouge                   | 3.4 kg (7.5 lbs) per hour              | 3.2 mm (.12") D x 6,8 mm (.26") W |

| Torch output** | 6.9 kW                         |
|----------------|--------------------------------|
|                | 45 A x 155 V ÷ 1000 W = 6.9 kW |

<sup>\*\*</sup>Higher output voltage at the torch plus efficiently designed consumables result in a faster, cleaner cut.

# Powermax45 SYNC. Easy to use. Versatile. Reliable.

For metal workers who want the most versatile system available to gouge, cut, and mark, Powermax45 SYNC delivers the best return on investment with a patented single-piece cartridge, up to 5x longer consumable life, and greater cutting power than higher-amperage competitors.

Our proprietary single-piece, color-coded cartridges help operators eliminate mix-ups, simplify inventory management, and decrease operating costs.

# Highlighted product features:

### Easy to use

- A patented single-piece cartridge eliminates operator error and simplifies operations
- Advanced torch communication for automated setup improves cut quality
- Easy to set up for mechanized usage with optional CNC interface and FastConnect™ torch connection

### Versatile

- Gain greater cutting power than higher-amperage competitors
- Expand application capabilities with a wide variety of specialty cartridges and torches
- Cut and mark using the same FineCut® cartridge

### Industry-leading reliability

- Powermax plasma cutters are known to last decades in the field, minimizing maintenance and downtime
- SmartSYNC® torches are engineered for rugged industrial environments
- Each Powermax component is tested to perform reliably in demanding conditions

# Our customers' preferred cutting tool for industries including:

- Job shops/fabricators
- Property/plant maintenance
- HVAC/mechanical contracting
- Educational/trade schools
- Agricultural/equipment maintenance

### **Specifications**

CE – for use in Europe, Australia & New Zealand - RCM, Serbia, UK – UKCA, Ukraine, and other countries where accepted.

CCC - for use in China

CSA - for use in the Americas and Asia, except China
