### 3M<sup>™</sup> Speedglas<sup>™</sup> Welding Helmet 9100

# **Designed for Ultimate Protection**

Protecting your eyes and face from radiation, heat and sparks — while providing a precise view of your work - makes your Speedglas welding helmet 9100 one of your most important welding tools.

3M<sup>™</sup> Speedglas<sup>™</sup> Welding Helmet 9100 Air

## **Respiratory Welding Helmet**

All of the benefits of the 9100 welding helmets can now be used in combination with powered or supplied air respiratory protection. See further details of respirator compatibility on page 53

Speedglas welding filter series 9100 with superior optical performance for continuous viewing comfort.

Meets the requirements of mechanical resistance to high speed particles according to EN 175 class B.

The all-new face seal readily follows the contours of both the helmet and your face.

Airflow: The middle channel keeps the filter virtually fogfree, while two side channels provide smoothly distributed air to the area of your mouth and nose.

Exhaust vents: Readily directs your exhaled air out of the helmet and reduces the likelihood of a foggy welding filter.

#### **Extended protection:**

A flame-resistant headcover (used in this application) and an ear/neck protection are available as accessories.
